

Take Advantage of This Opportunity and Join Our Team as

OPERATIONS AND MAINTENANCE SPECIALIST (M/F)

Kelag International Udine

Kelag International Udine S.r.l. is the international business unit of the **Kelag Group**, one of Austria's leading energy companies with over a century of experience and a strong commitment to a future powered entirely by renewable energy. We develop, operate and manage renewable energy assets – including wind, solar and hydropower – across 14 European markets.

As we continue to grow our renewable operations, we are strengthening our Operations & Maintenance team at our **Udine office** and are looking for passionate professionals to help ensure the reliable performance and optimisation of our diverse plant portfolio.

As an O&M Specialist, you will play a key role in ensuring the reliable and efficient operation of renewable energy assets, including wind, solar and hydro powerplants.

If you have a strong understanding of plant operations, maintenance processes and performance optimisation in renewable energy systems, we invite you to join our team.

Your responsibilities:

- Coordination of activities and providing technical support in the development, construction, and maintenance of projects (hydro, wind and solar powerplants)
- Monitoring the operation of the production units within portfolio
- Organisation and execution of technical inspections and condition assessments of production units
- Collaboration on integrating new facilities into operational processes
- Finding, coordinating, and implementing technical and technological solutions
- Preparing technical requirements in the processes of ordering equipment and services related to the planning, construction, and maintenance of production units
- Participating in the acquisition or procurement of new projects
- Organisation and execution of factory and site acceptance testing, commissioning, and further tests during trial run period
- Operational management in emergencies and crises, including appropriate accessibility
- Responsibility to comply with HSSE (Health, Safety, Security & Environment)

- Support in the further development of internal group standards for operations and maintenance

Your key attributes and qualifications:

- Degree in technical studies (preferred university degree in electrical engineering or similar field) with relevant professional experience or technical school with 5 years of relevant professional experience
- Knowledge and experience in emergency and crisis management is desired
- Hands-on mentality, self-initiative and ability to manage different stakeholders
- Conscientiousness, accuracy, reliability and a high sense of responsibility
- Team player with strong communication skills and confident appearance
- Fluency in English and Italian (written and spoken)
- Driving license, willingness to travel (2 days per week)
- Experience in international environments is desired

Why join us:

- We are a part of Austrian Kelag group, with strong ties across 14 markets in south-eastern and central Europe
- International work environment that fosters personal and professional growth
- Competitive salary and a modern compensation model based on individual performance
- Open communication and collaboration

We invite you to submit your application with the attached CV by **15th February 2026** via e-mail to: neja.sokolic@kelag.com
